

GREENLAB

Base catalogue

GreenLab was born from the friendship of Giuseppe, passionate about flour and doughs, and Giampaolo, with a long experience in **sustainable and “green” projects**.

Produces a variety of high-quality pizza bases. The doughs are “indirect”, with the use of high percentages of pre-dough called “biga”, stretched by hand and with the use of sourdough. The high percentages of hydration, with a coefficient ranging from 65 to 100% depending on the type of dough, allow **the bases to be light and digestible**. They are packaged in ATP with a shelf-life of 50 days.

In addition to standard doughs, it produces and studies customized solutions for HoReCa and GDO on request.

Every day we strive to choose the **best raw materials**, from certified supply chains. We do research and study the market to find many new combinations that allow our customers to always keep up with the times.

CLASSIC

Pre-cooked oven-baked product

NUTRITION FACTS

Nutritional values for 100 gr of product

Energy (kcal)	246
Energy (kJ)	1.025
Fats	3,8
of which saturated	0,6
Carbohydrates (g)	44
of which sugars (g)	0,8
Total Fiber (g)	1,4
